

# Blondes, etc.

A blonde was terribly overweight and wanted to look good again, so her doctor put her on a diet. "I want you to eat regularly for 2 days, then skip the next full day and repeat this procedure for 2 weeks. The next time I see you, you'll have lost at least 5 pounds."

When the blonde returned, she shocked the doctor by losing nearly 20 pounds. "Why, that's amazing!" the doctor said, "Did you follow my instructions?"

The blonde nodded. "I'll tell you though, I thought I was going to drop dead by the end of the 3rd day." "Not from hunger, I hope?" asked the doctor.

"No, from skipping," said the blonde.

---

There were these three guys, a Polish guy, an Italian guy, and a Jewish guy. They all worked together at a factory. Everyday they notice that their boss leaves work a little early. So one day they meet together and say that today when the boss leaves, they'll all leave early too. The boss left and so did they.

The Jewish guy goes home and goes to rest so he can get an early start. The Italian guy goes home and cooks dinner. The Polish guy goes home and walks to his bedroom. He opens the door slowly and sees his wife in bed with his boss so he shuts the door and leaves.

The next day the Italian and Jewish guys are talking and plan to go home early again. They ask the Polish guy if he wants to leave early again and he says, "no." They ask him why not and he said, "because yesterday I almost got caught!"

---

## **Subject: Chicken Gun**

Scientists at NASA have developed a gun, whose purpose it is to launch dead chickens. It is used to shoot a dead chicken at the windshields of airline jets, military jets, and the space shuttle, at that vehicle's maximum traveling velocity. The idea being, that it will simulate the frequent incidents of collisions with airborne fowl, and therefore determine if the windshields are strong enough.

British engineers, upon hearing of the gun, were eager to test the gun out on the windshield of their new high speed trains.

However, upon the firing of the gun, the engineers watched in shock as the chicken shattered the windshield, smashed through the control console, snapped the engineer's backrest in two, and embedded itself in the back wall of the cabin. Horrified, the engineers sent NASA the results of the experiment, along with the designs of the windshield, and asked the NASA scientists for any suggestions.

---

The NASA scientists sent back a one sentence response: "Thaw the chicken."

# Blondes, etc.

An Army Ranger was on vacation in the depths of Louisiana and he wanted a pair of genuine alligator shoes in the worst way, but was very reluctant to pay the high prices the local vendors were asking. After becoming very frustrated with the "no haggle" attitude of one of the shopkeepers, the Ranger shouted, "Maybe I'll just go out and get my own alligator so I can get a pair of shoes made at a reasonable price!"

The vendor said, "By all means, be my guest. Maybe you will run into a couple of Marines who were in here earlier saying the same thing." So the Ranger headed into the bayou that same day and a few hours later came upon two men standing waist deep in the water. He thought, "Those must be the two Marines the guy in town was talking about." Just then, the Ranger saw a tremendously long gator swimming rapidly underwater towards one of the Marines. Just as the gator was about to attack, the Marine grabbed its neck with both hands and strangled it to death with very little effort.

Then both Marines dragged it on shore and flipped it on its back. Laying nearby were several more of the creatures. One of the Marines then exclaimed, "Damn, this one doesn't have any shoes either!"

-----

"OK, Men, take that hill!" "Uh, Sarge, where do you want us to put it?"

---

Three blondes are sitting by the side of a river holding fishing poles with the lines in the water. A Game Warden comes up behind them, taps them on the shoulder and says, "Excuse me, ladies, I'd like to see your fishing licenses."

"We don't have any." replied the first blonde.

"Well, if your going to fish, you need fishing licenses." said the Game Warden. "But officer," replied the second blonde, "we aren't fishing.

We all have magnets at the end of our lines and we're collecting debris off the bottom of the river."

The Game Warden lifted up all the lines and, sure enough, there were horseshoe magnets tied on the end of each line.

"Well, I know of no law against it," said the Game Warden, "take all the debris you want." And with that, the Game Warden left.

As soon as the Game Warden was out of sight, the three blondes started laughing hysterically. "What a dumb Fish Cop," the second blonde said to the other two, "doesn't he know that there are steelhead in this river?!"

---

A blonde decides to try horseback riding, even though she has had no lessons or prior experience. She mounts the horse unassisted and the horse immediately springs into action. It gallops along at a steady and rhythmic pace, but the blond begins to slip from the saddle. In terror, she grabs for the horse's mane but cannot seem to get a firm grip. She tries to throw her arms around the horse's neck, but she slides down the side of the horse anyway. The horse gallops along, seemingly unaware of its slipping rider.

Finally, giving up her frail grip, she leaps away from the horse to try and throw herself to safety. Unfortunately, her foot has become entangled in the stirrup. She is now at the mercy of the horse's galloping gait as her head is struck against the ground over and over again. As her head is battered against the ground, she is mere moments away from unconsciousness when to her great fortune, the Wal-Mart store manager sees her and shuts the horse off.

---

A State Trooper pulls over a swerving car on a lonely back road and approaches the blonde lady driver.

"Ma'am," he says, "is there a reason why you're weaving all over the road?"

The woman replies: "Oh officer, thank goodness you're here! I almost had an accident. I looked up and there was a tree right in front of me. I swerved to the left and there was another tree in front of me. I swerved to the right and there was another tree in front of me!"

"Ma'am," the officer replies, tapping the blonde's windshield, "that's your air freshener."

---

A blonde woman went out to her mail box and looked in it, closed it, and went back into her house. A few minutes later, she went out and looked in the mail box again, then closed it and went back inside, once again empty-handed.

After several more trips, a watchful neighbor raking his grass commented, "You must be expecting a very important letter today!"

"No," the blonde woman answered, looking puzzled, "Actually I am working on my computer, and it keeps telling me that I have mail!"

.....

It was snowing heavily and blowing to the point that visibility was almost zero when the little blonde got off work. She made her way to her car and wondered how she was going to make it home. She sat in her car while it warmed up and thought about her situation.

She finally remembered her daddy's advice that if she got caught in a blizzard she should wait for a snow plow to come by and follow it. That way she would not get stuck in the snow drift.

This made her feel much better and sure enough in a little while a snow plow went by and she started to follow it. As she followed the snow plow she was feeling very smug as they continued and she was not having any problem with the blizzard conditions.

# Blondes, etc.

After quite some time had passed she was somewhat surprised when the snow plow stopped and the driver got out and came back to her car and signaled for her to roll down her window. The snow plow driver wanted to know if she was all right as she had been following him for a long time. She said that she was fine and told him of her daddy's advice to follow a snow plow when caught in a blizzard.

The driver replied that it was OK with him and she could continue if she wanted but he was done with the Walmart parking lot and was going over to K-Mart next.

**Comprehending Engineers - Take One**

Two engineering students were walking across campus when one said, "Where did you get such a great bike?"

The second engineer replied, "Well, I was walking along yesterday minding my own business when a beautiful woman rode up on this bike. She threw the bike to the ground, took off all her clothes and said, "Take what you want." "The second engineer nodded approvingly, "Good choice; the clothes probably wouldn't have fit."

**Comprehending Engineers - Take Two**  
.....

To the optimist, the glass is half full. To the pessimist, the glass is half empty. To the engineer, the glass is twice as big as it needs to be.

.....  
**Comprehending Engineers-Take Three**  
.....

A pastor, a doctor and an engineer were waiting one morning for a particularly slow group of golfers.

The engineer fumed, "What's with these guys? We must have been waiting for 15 minutes!"

The doctor chimed in, "I don't know, but I've never seen such ineptitude!"

"The pastor said, "Hey, here comes the greenskeeper. Let's have a word with him."  
[dramatic pause]

"Hi George. Say, what's with that group ahead of us? They're rather slow, aren't they?" The greenskeeper replied, "Oh, yes, that's a group of blind firefighters. They lost their sight saving our clubhouse from a fire last year, so we always let them play for free anytime." The group was silent for a moment. The pastor said, "That's so sad. I think I will say a special prayer for them tonight." The doctor said, "Good idea. And I'm going to contact my ophthalmologist buddy and see if there's anything he can do for them." The engineer said, "Why can't these guys play at night?"

# Blondes, etc.

There was an engineer who had an exceptional gift for fixing all things mechanical. After serving his company loyally for over 30 years, he happily retired. Several years later the company contacted him regarding a seemingly impossible problem they were having with one of their multimillion dollar machines. They had tried everything and everyone else to get the machine to work but to no avail. In desperation, they called on the retired engineer who had solved so many of their problems in the past. The engineer reluctantly took the challenge. He spent a day studying the huge machine. At the end of the day, he marked a small "x" in chalk on a particular component of the machine and stated, "This is where your problem is". The part was replaced and the machine worked perfectly again. The company received a bill for \$50,000 from the engineer for his service. They demanded an itemized accounting of his charges.

The engineer responded briefly: One chalk mark \$1; Knowing where to put it \$49,999. It was paid in full and the engineer retired again in peace.

**Comprehending Engineers-Take Five**  
.....

What is the difference between Mechanical Engineers and Civil Engineers?

Mechanical Engineers build weapons, Civil Engineers build targets.

.....  
**Comprehending Engineers-Take Six**  
.....

Three engineering students were gathered together discussing the possible designers of the human body. One said, "It was a mechanical engineer. Just look at all the joints." Another said, "No, it was an electrical engineer.

The nervous system has many thousands of electrical connections." The last said, "Actually it was a civil engineer. Who else would run a toxic waste pipeline through a recreational area?"

.....  
**Comprehending Engineers-Take Seven**  
.....

"Normal people ... believe that if it ain't broke, don't fix it. Engineers believe that if it ain't broke, it doesn't have enough features yet."

----- Scott Adams, The Dilbert Principle

.....  
**Comprehending Engineers-Take Eight**  
.....

An architect, an artist and an engineer were discussing whether it was better to spend time with the wife or a mistress. The architect said he enjoyed time with his wife, building a solid foundation for an enduring relationship. The artist said he enjoyed time with his mistress, because of the passion and mystery he found there.

# Blondes, etc.

The engineer said, "I like both." "Both?" Engineer: "Yeah. If you have a wife and a mistress, they will each assume you are spending time with the other woman, and you can go to the lab and get some work done."
