With all of my heart I love you
All of my heart knows this to be true
all of my heart feels that you are with me
No matter the distance between we two

All of my heart will cherish you forever
All of my heart beats just for you
All of my heart can't wait to hold you
Whenever I'm standing close to you

[Instrumental]

With all of my heart I'd wait forever
With all of heart I say "I do"
With all of my heart I'll stand by you
Until our time on earth is through

With all of my heart, all of my heart
I feel you love me too
Know that my heart all of my heart
Will forever belong to you

* Laurie is referred to as Folgers because she clearly is the best part about waking up!
