

# I Miss My Friend

My friend, my dearest friend  
You were sent to me from heaven  
I'll say it here, say it again  
I miss you more than ever

When things seemed rough and I was going against the tide  
You were always by my side  
And when things were good, oh so very good  
You made me come alive

My friend, my dearest friend  
What is it about you  
That fills my heart with so much joy  
How I love to be around you

I smell you in the air  
Even when you're so many miles away from me  
The softness of your hair  
Inspires every cell in me

My friend, my dearest friend  
I will wait forever for you  
I would wait a thousand years  
Just for the chance to be near you

They say a man can dream  
And his dreams might come true eventually  
But until that moment comes along  
All I have is you in song.

I wish that you could sing along with me.
